

In an effort to comply with the regulations set forth in the Children's Online Privacy Protection Act, below is a list of the most commonly used online resources that **may** be used in your child's classroom. Along with the name of the resource, you will also find a link to the resource and a link to the resource's Privacy Policy indicating that only basic information may be collected and that it will not be sold. This is **not** an exhaustive list. If you wish to find out more specific information regarding a resource in your child's classroom, please contact your child's classroom teacher.
